

Note From The Pastor

First let me say how much I miss everyone. I've been a pastor for over 42 years, 20 of them in Savannah and this is so not fun. I couldn't reenact the fall if I tried a million times. The girls say I made some great choices in Europe and the staff (which was wonderful at St. Joseph's) loved seeing all the places they were experiencing. As you all know I am a very hyper person, and it is difficult to be patient and follow instructions to take it slow. The pain has lessened greatly, and I do my exercises twice a day. It's great being here with El and Sarah is still here for a day or so. My brother and a friend will be coming to stay with me in the next few weeks. God didn't do this to me, I just tripped. My plan is to be back in action by Rally Day. Thank you for all your prayers and cards and food. I really appreciate your support. Pjh
